## Pandas: Cuddliest of all Bears

Beware: Dangerously Cute Exercise

What do you know about giant pandas? Read and complete the article to find out more about these cuddly black and white bears. Circle the correct words. Underline words you don't know.

### Introduction

The giant panda has a distinctive (a) black / (b) white head with (a) black / (b) white eye patches, ears and shoulders. Unlike other bear species, giant pandas are (a) carnivorous / (b) herbivorous spending up to 12 hours a day chewing bamboo shoots and roots. Because of poaching and habitat loss, they are extremely (a) common / (b) extinct / (c) rare, occurring in small populations in the bamboo forests of China. Despite being the subject of major international conservation efforts, wild populations of giant pandas (a) can / (b) may / (c) must not be enough to save this species.

### Panda's Territory: Where do pandas come from?

Giant pandas (a) live / (b) are living / (c) have lived in the bamboo forests of China for millions years and have been honored by the Chinese for a very long time. In fact, giant pandas (a) appear / (b) are appearing / (c) have appeared in Chinese art for thousands of years. Because the giant panda is considered a national treasure in China, it is protected by law so that it (a) becomes / (b) becomes not / (c) does not become extinct.

Although giant pandas have long been known to the Chinese, they (a) are / (b) do / (c) have a recent discovery for people living outside of China. The first westerner to observe a live giant panda in the wild (a) is / (b) was / (c) had been a German zoologist named Hugo Weigold. In 1916, he (a) bought / (b) has bought / (c) had bought a cub while he was on expedition.

### At Panda's Place: Where do pandas live?

There is only one place where giant pandas (a) live / (b) lived / (c) were living in the wild: high in the mountains of central China. There, they (a) live / (b) are living / (c) have lived in cold and rainy bamboo forests that are often misty and shrouded in heavy clouds. Once upon a time, giant pandas (a) lived / (b) have lived / (c) had lived in lowland areas. However, as people (a) buildded / (b) built / (c) had built more and more farms and cities on that land, the giant pandas were forced up into the mountains. Today, they (a) live / (b) lived / (c) have lived at elevations of 5,000 to 10,000 feet.

## PENGUIN ANTICS

Name: \_\_\_\_\_

Penguins are birds that live in the coldest parts of the world. They are black with white stomachs and have small wings. They move across the ice by waddling slowly on their little feet with their wings out to the side. Surprisingly, Penguins can not fly even though they have wings. They use their wings to balance them as they waddle across the ice. Their bodies are also very good at keeping the penguin warm in the cold weather. Penguins are very good at swimming and use the strength in their bodies to move easily through the water. Penguins need to be good swimmers because they eat mostly fish and sea animals. When they catch their food they swallow it whole! They also need to use their strong bodies to get away from seals and sharks because seals and sharks eat penguins. There are lots of different types of penguins and they come in all different sizes and shapes. We all need to make sure we take good care of our world because oil spills and global warming can destroy the penguin's home.
